

Clean Energy Internship Program

The Massachusetts Clean Energy Center and the New England Clean Energy Council's first ever Clean Energy Internship Program supports paid summer internships at clean energy companies across the Commonwealth.

The program highlights our commitment to supporting education and training opportunities that align with the Commonwealth's clean energy goals, while providing valuable experience for those considering a career in clean energy.

Thank you for joining us in celebrating the inaugural year of this successful program.

**Massachusetts State House, Great Hall
August 8, 2011**

Welcome

Event Schedule

10:00 AM Opening Ceremony

Speakers

- Lieutenant Governor Timothy Murray
- Patrick Cloney, Executive Director, Massachusetts Clean Energy Center
- Hold for REP, New England Clean Energy Council
- Dan Leary, President, Renewable Energy Solutions and co-founder of Nexamp, Inc.
- Anna Stern, Clark University, intern at Second Generation Energy

10:30 Networking

Refreshments and Slide Show

Program Participants
