New England Clean Energy Quarterly | Issue 3

The Council is pleased to announce a number of new programs and initiatives, including the launch of our Executive-in-Residence Corporate and Startup Projects, as well as the evolution of our Fellowship program, in partnership with Boston University School of Management.

Thank you to all those Sponsors & Members who participated in our first-ever Annual Meeting on October 19th. Finally, we hope to see all of you at the [3rd Annual Green Tie Gala](#) on November 4th.

Sincerely,
The Council Team

Announcements

[New England Clean Energy Council, Fraunhofer Techbridge and MassCEC Selected for DOE Ecosystem Award](#)

This \$1 million award from the U.S. Department of Energy (DOE) combines The Council's EIR Start-Up Project (below) with Fraunhofer's Techbridge technical services, MassCEC and the ACTION incubator network to establish the Innovation Acceleration Partnership to accelerate spinout and commercialization of university-cleantech technologies.

[Evolution of the Fellowship Program 2011 Certificate Program in Leading Clean Energy Ventures](#)

The Council is pleased to announce that it will be partnering with the Boston University School of Management to jointly offer a new course, the Executive Certificate Program in Leading Clean Energy Ventures. The program, which evolved out of the Council's signature Fellowship program, will feature both in-person and remote learning opportunities as well as a capstone project, and connection of the entrepreneurs and intrapreneurs to the Council's community. Dates, enrollment and further details will be announced shortly.

[Executive-in-Residence Corporate Project Launch](#)

The EIR Corporate Project offers our Members and Sponsors with the opportunity to obtain senior talent without the cost or commitment of adding a permanent executive or hiring a professional consultant. The Council has partnered with Polachi & Company to facilitate applications from a pool of interested candidates, to conduct the interview process and to arrange final placement within the organization. Please contact Melissa Rick at mrick@cleanenergycouncil.org for more information.

[Executive-in-Residence Start-up Project](#)

The EIR Start-up Project links lab projects and start-up clean energy companies with experienced entrepreneurs to develop and vet business plans, go-to-market strategies and potential financing opportunities. The EIR Start-up Project aims to validate and accelerate the commercialization and growth of early-stage clean energy ventures. The initial EIR-Start-up Projects will launch later this fall.

[Incubation Space Near South Station for Clean Energy Start-ups](#)

The New England Clean Energy Council is now renting incubator space to start-up clean energy companies. The "Greenhouse" incubator includes conference room use, kitchen, desk space and a great location in the downtown Boston area. The Council currently has seven desks available in our new location at 10 High Street in Boston. To inquire or visit the Greenhouse Council's offices please contact Melissa Rick at mrick@cleanenergycouncil.org or 617-500-9995.

Become a Member

Membership in the Council is an opportunity to join a powerful, growing community dedicated to building a robust environment for clean energy activity within New England... [Read more](#)
